Hi Rod-

I'm planning to be down in Pasco on May 24 to observe some sampling activities (condensate and soil vapor) at the Pasco Landfill Site. I wanted to check and see if this would be a convenient opportunity for us to meet and discuss the anticipated construction completion updates for the project. You could also join us on a brief site reconnaissance. I'll be accompanied by our new project engineer, Jeremy Schmidt. This will be his first visit to the site.

Please let me know you could join us at the site on the 24th, and whether we could use this opportunity to discuss construction completion issues. If this doesn't work with your schedule, we can either meet in person up here or down in Richland, or take care of the information exchange over the phone.

Thanks for your consideration of this request. Hopefully we can rendezvous with you at the site on the 24th.
